

# Email Validation

## Validate email addresses in real time

With only 40% of the world's domain names being live, we can help you avoid bogus email addresses being entered incorrectly with our real-time email validation web service which identifies and corrects errors in both the username and domain parts of the address. With accurate email addresses you can ensure your outbound email communication is reaching your intended audience and improve effectiveness.

### Integrations:

- Your [website](#) and internal software systems as an auto fill web service
- API integration ([Sage](#), [Salesforce](#) and [Microsoft Dynamics](#))
- Shopping cart solutions API integration ([Magento](#), [OpenCart](#) and [Prestashop](#)).

### Features:

- Capture accurate email addresses, first time, every time
- Real-time email address validation
- Ready-made ASP.NET validator controls

Our services can be installed and integrated into your systems in minutes.

### Features:

- Improve marketing campaign effectiveness
- Improve customer service
- Identify and avoid bogus email addresses
- Enrich your database with accurate emails
